CAREERS IN FOOD SCIENCE AND NUTRITION

CAREERS IN FOOD SCIENCE AND NUTRITION

FOOD SCIENCE

Food scientists are responsible for

- Making food tastier, healthier, and safer for people
- Inventing new foods and flavours and studying how consumers like them
- Studying how packaging preserves food after it has been processed
- Sustainable agricultural food processing
- Influencing people's eating behaviours so they are more healthy
- Improving the health of people by influencing what they eat through marketing.

Studying food science: you can study food science at the vocational and higher education level. The following are examples of courses you can explore:

- **William Angliss**, Melbourne: Diploma of Food Science and Technology, <http://bit.ly/2xeJ9kM>
- **RMIT**, Melbourne: Bachelor of Science (Food Technology and Nutrition)/Bachelor of Engineering (Chemical Engineering) (Honours), <http://bit.ly/2fe59q0>
- **Western Sydney University:** Bachelor of Sustainable Agriculture and Food Security, <http://bit.ly/2ffaKfu>

What are the jobs? Jobs can include:

Laboratory analysis Quality assurance Quality control Food policy officer Consumer enquiries	Sensory scientists Product development officers Food chemists Food microbiologist
----------------------------------------------------------------------------------------------------------	--------------------------------------------------------------------------------------------

NUTRITION AND DIETETICS

Nutritionists and Dietitians work with people

- To improve their health and wellbeing through diet and lifestyle
- Who have health conditions like diabetes and high blood pressure that can be improved by changes to their diet
- Who experience anorexia/bulimia
- In hospitals, community centers, schools etc.

Studying nutrition and dietetics: To find out how to become an accredited nutritionist or dietician, go to <http://bit.ly/2hcwDJs>

Examples of courses include:

- **Endeavour College of Natural Health**, Melbourne: Bachelor of Health Science (Nutritional and Dietetic Medicine), <http://bit.ly/2xsGdSp>
- **La Trobe University**, Melbourne: Bachelor of Applied Science/Master of Dietetic Practice, <http://bit.ly/29y26V1>
- **Deakin University**, Burwood: Bachelor of Nutrition Science, <http://bit.ly/2fC62XU>
- **Monash University**, Clayton: Bachelor of Nutrition Science, <http://bit.ly/2y8Jtzn>

Clinical Nutritionist Dietition Media Public Health Consumer enquiries	Marketing Health Promotion Consultancy Corporate Nutrition
------------------------------------------------------------------------------------	---------------------------------------------------------------------

SUGGESTED SCHOOL SUBJECTS

Suggested subjects for students interested in studying food science, nutrition or dietetics include:

Chemistry	Physical Education
Physics	Food Studies
Biology	VET Hospitality
Mathematics	Health & Human Development
Business

Careers in the Victorian Police Force:

Explore Careers recently interviewed Lauren from the Critical Incident Response Team at Victoria Police. In the video, Lauren talks about her career and what she does on a day-to-day basis in her role. You can watch the video here - <http://bit.ly/2xvozOQ> You can explore other careers in the Force and learn about the recruitment process at this link - <http://bit.ly/1LfnfeQ>

Science Career Wheel: Australia National University has put together an interactive career wheel for students who are keen to explore a career in science and courses they can undertake. You can access the wheel here - <http://bit.ly/2kE09N5>

Latest stories from Careers with STEM

- **Artificial body parts:** From cochlear implants to prosthetic hands and robot legs, bionic body parts can help us see, hear and move almost like new, <http://bit.ly/2fXRIMS>
- **Six reasons why engineering is the best degree you can choose:** Why engineers rule, <http://bit.ly/2fZuNLW>
- **Building a sustainable society:** save the world using computer science and sustainable development, <http://bit.ly/2yV4Rbv>
- **IT traineeships at ASIO:** apply for an information technology or information management traineeship at Australian Security Intelligence Organisation, <http://bit.ly/2xria6Q>
- **Careers in Engineering:** read an amazing careers guide online about engineering or order a copy, <http://bit.ly/2zciXGx>

Have you considered a career in music performance?

Collarts is a private college in Melbourne that offers courses in Music Production, Audio Production, Music Performance, Content Creation, Entertainment Management, and Entertainment Journalism.

Nina Las Vegas (Triple J / NLV Records) recently ran a workshop at Collarts. The session kicked off with Entertainment Journalism students interviewing Nina as she talked through the journey of her career so far and shared the key things she's learned along the way.

Things then took a turn for the technical, with Nina loading up some of her Ableton Live projects for a behind-the-scenes look at her music production techniques. You can watch the workshop at this link - <https://goo.gl/bdTvCs>

News from Monash University

2018 Monash Access Mentors:

Applications for the Monash Access Mentors program are now open for high achieving Year 12 students who plan to study at Monash in 2018. Becoming a Mentor is a fantastic opportunity for students to develop their leadership, public speaking and teamwork skills, and participate in leadership and networking opportunities with senior Monash staff and alumni.

Mentors are considered for the Community Leaders Scholarship, available for one year. The opportunity is open to domestic students with an ATAR of 85+. Interested students must apply to become an Access Monash Mentor. Applications close: Tuesday 31 October 2017, <http://bit.ly/2kEjcqI>

Monash Indigenous Entry Scheme:

The Indigenous entry scheme provides access for Aboriginal and Torres Strait Islander applicants into a range of Monash courses with a significantly lower ATAR requirement. All Indigenous undergraduate students are supported through programs coordinated by the Yulendj Indigenous Engagement Unit. Valued at up to \$12,000 per year, this support includes access to one-on-one academic tutoring, the supply of prescribed textbooks and a Monash Sport gym membership.

Students studying through the Faculty of Medicine, Nursing and Health Sciences can also access support for accommodation and course costs, as well as gaining access to a vertical peer support program.

For information and how to apply for the Indigenous Entry Scheme, go to <http://bit.ly/2kDZ7Rd>

Monash Maths Bridging course: this program is available to domestic students who narrowly miss the required study score in the mathematics prerequisite subjects for a Monash Engineering, Science or Business and Economics undergraduate degree. Students will undertake face-to-face study for 16 days.

Eligibility – VCE Students who receive a study score of 20-24 in VCE Mathematical Methods Units 3 and 4.

The program is only available for Monash courses and will be held at the Monash College, City campus.

For information, go to <http://bit.ly/2wLiMAc>
